## EDUCATION

Degree/Grade	Institution	Score
BTech CSE	AKGEC(AKTU) -Ghaziabad	7.7 sgpa (2018-2022)
Senior Secondary (CBSE)	Ingraham English Medium School - Ghaziabad	84.8% (2018)
High School (CBSE)	Ingraham English medium school - Ghaziabad	91.2%(2016)

## EXPERIENCE

- Appointed as a Research Fellow @ IIT, Roorkee. (current)
  - Working on project assigned by NIC (National Informatics Centre GOI)
  - Working on Government Document Processing ,NLP language translation and Script Detection project.
- Product & BI (Data Science) intern position @ [IGP](#) (Feb-22-2022 to June-01-2022)
  - Worked on recommendation engine pipeline.
  - Developed inhouse NLP algorithms for e-commerce use cases.
  - Developed Image Recognition pipeline for e-commerce.
  - Researched & worked to implement latest recommender algorithms.
  - Debugged and modified python scripts.
- DATA SCIENCE TRAINING: completed data science training program from internshala mentored by Mr. Kunal Jain founder Analytics Vidhya.
- Certified in 'Machine learning with Python' by 365DataScience

## PROJECTS

- [TEACHING A.I. TO PLAY MARIO\(RL\)](#): the project uses gym library for mario environment and stable baseline models to train A.I. to complete mario in least possible time.
- [NLTK CHATBOT](#): Built a chatbot by leveraging chatbot corpus from wikipedia.com and saving it to chatbot.text and then applying NLTK techniques on it.
- [GEOSPATIAL ANALYSIS OF INDIA](#): the project was intended to analyze different aspects of my country India, like gender ratio, literacy rate, population rate etc. using visually appealing python folium visualization.
- [KNEE BENT VIDEO PROCESSING\(POSE ESTIMATION\)](#): detecting movement (knee bent) from the video/live cam and counting reps as well as classifying the current state (bent/straight) using OpenCV and mediapipe.
- [UNIVERSAL OBJECT DETECTION OpenCV](#): passing desired input images with desired input labels and use them for detection. [Git app model](#) provided by Tzutalin is used for labelling the data according to our preferences.

## SKILLS

- [Python](#)
- MySQL
- Statistic ,Data Analysis
- Machine Learning, Deep Learning, NLP, CompVision
- Reinforcement learning.
- Stable baselines,gym
- RL env
- Image Segmentation, processing and recognition.
- AR tools(Unity,Adobe)
- Pose Estimation,openCV
- AR, VR app development
- C#
- GeoSpatial Analysis
- [TimeSeries Forecasting](#)
- Flask/Stream Lit
- Version/Env. Control(git)
- [Apache PySpark](#) (Big data)
- [PowerBI](#), Mix Panel
- Elastic Search
- Kibana
- AWS
- Solidity
- Blockchain development

## LEADERSHIP AND ACHIEVEMENTS

- Selected as the Youngest research fellow @ IITR.
- Rank 112 in Analytics Vidhya Job-A-thon 2022.
- 5 star on hackerank
- Top 500 in Microsoft ML challenge(2020)
- Top 1% innate reasoning ability in UPRAISED ESAT 2021.
- Participated in Scrolls 2019 paper presentation
- First rank school science olympiad 2016/ Third rank school math olympiad 2016
- Volunteered in events organized by GADW(Gzb. ass. for deaf women) NGO.
- Helped thousands by creating a covid19 resources page on IG(@ghaziabadresources)

## LANGUAGES

Hindi, English
